123

The top floor of the observation deck is 123m above ground. Enjoy the amazing panoramic view of Fukuoka's cityscape, Hakata Bay, and the Sefuri Mountain range!

63

Fukuoka Tower is built to withstand winds as strong as 63m/second. The strong ocean winds are no match for Fukuoka Tower.*1

7

Fukuoka Tower is safely designed to withstand an earthquake with a seismic intensity of 7.*2

234

The total height of the tower in meters. It is the tallest seaside tower in Japan.

234m

25000

The underground foundation of Fukuoka Tower weighs 25,000 tons but the portion of the tower above ground only weighs 3,500 tons! Because Fukuoka Tower is very bottom-heavy, there is no doubt about its structural stability.

8000

Fukuoka Tower is often referred to as the "Mirror Sail". Made with 8,000 one-way mirrors the triangle tower is a sail of glimmering mirrors.

Lover's Sanctuary

Fukuoka Tower is a favorite date spot and a "sacred spot for sweethearts" and has recently become popular as a spot for Oshikatsu fans to take photos that support their favorite characters or people.

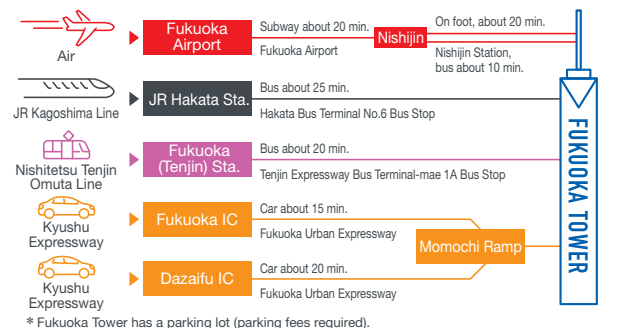

The "Lover's Sanctuary" has been enhanced for Oshikatsu fans to support someone or something they love! Choose from eight colors to light up the heart.

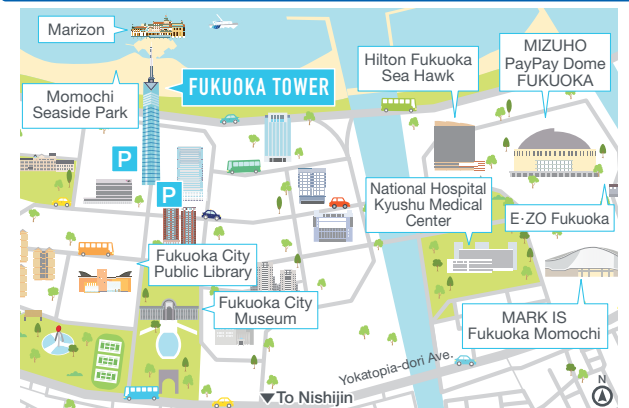

Declare your love for your "oshi" or partner with a love lock!

Set up your acrylic stand with "oshi" phrase here and take a shot!
