Spend an anniversary at Fukuoka Tower with your family, lover, best friend, or someone close and have a memorable experience.

Illustration

Tower Illumination in Fukuoka's Night Sky

Fukuoka Tower is lit up at night according to the season, with the dazzling illumination lighting up Seaside Momochi.

Lover's Sanctuary

Fukuoka Tower is a popular dating spot named as a Lover's Sanctuary.

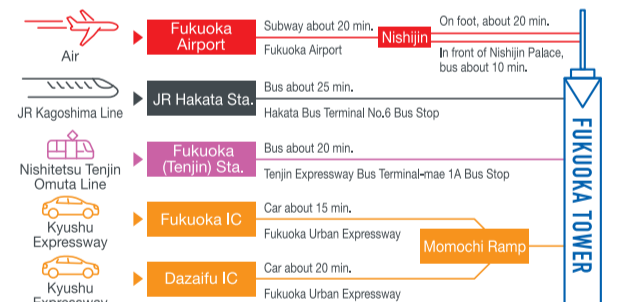

A heart-shaped photo spot where couples can take photos against a background of the Fukuoka cityscape. When the couple holds hands and presses a switch, the heart will light up.

A legend exists that padlocking a love lock onto the "fence of vows" will keep a couple together forever.

Annual Events

There are lots of fun events throughout the year!

Check for the latest info on our website!
<https://www.fukuokatower.co.jp/en/>

Tanabata Festival (July)

A fair takes place at the tower-front plaza, with food stalls, a goldfish scooping game, live music, and more! A "Wish Corner" in the observatory is available for writing your wish on a piece of paper and hanging it up.

Respect for the Aged Day (September)

Seniors aged 65 and over are invited up to Fukuoka Tower for free. Discounted souvenir photos and other services are available, including events for having fun with the grandkids!

Stair Climbing Event (October)

Climb the 577 stairs to reach the observatory...and...Go! The emergency stairs of Fukuoka Tower will be open just for this event. Receive a prize just for participating!

Christmas (December)

Fukuoka Tower is lit up with a giant Christmas tree, and the surrounding trees are decorated in blue lights to symbolize the sea and sky, creating a magical atmosphere.

Take a Look at Fukuoka Tower's Numbers!

Learn about the features of Fukuoka Tower in numbers!

123 The top floor of the observation deck is 123m above ground. Enjoy the amazing panoramic view of Fukuoka's cityscape, Hakata Bay, and the Sefuri Mountain range!

63 Fukuoka Tower is built to withstand winds as strong as 63m/second. The strong ocean winds are no match for Fukuoka Tower.*1

7 Fukuoka Tower is safely designed to withstand an earthquake with a seismic intensity of 7.*2

234 The total height of the tower in meters. It is the tallest seaside tower in Japan.

25000 The underground foundation of Fukuoka Tower weighs 25,000 tons but the portion of the tower above ground only weighs 3,500 tons! Because Fukuoka Tower is very bottom-heavy, there is no doubt about its structural stability.

8000 Fukuoka Tower is often referred to as the "Mirror Sail". Made with 8,000 one-way mirrors the triangle tower is a sail of glimmering mirrors.

*1 The strongest instantaneous wind speed ever recorded in Fukuoka was 49.3m/second *2 The largest earthquake in Fukuoka had a seismic intensity of a lower 6
